# Le Thanh An

nguyenhuybn253@gmail.com | (+84)-865-797-312 | linkedin.com/in/lethanhan | github.com/lethanhan01

## Education

**Hanoi University of Science and Technology (HUST)** — Hanoi, Vietnam
*Bachelor of Vietnam-Japan Information Technology Program (HEDSPI)* — *Sept. 2023 – Sept. 2027*
- CPA: 3.25/4.0 (as of April 2026)

**Bac Ninh Specialized High School** — Bac Ninh, Vietnam
*Specialized in Mathematics* — *Sept. 2020 – May. 2023*

## Experience

**Swantech** — Hanoi, Vietnam
*Software Engineer Intern* — *Jul. 2026 – Present*
- Architected and delivered scalable RESTful APIs for an enterprise Room Booking module within a .NET Core microservices architecture, applying Repository Pattern, DTOs, and Dependency Injection to ensure loosely coupled inter-service communication.
- Implemented robust JWT authentication with granular Role-Based Access Control (RBAC), and engineered reactive scheduling interfaces using Angular, TypeScript, and RxJS—eliminating booking conflicts for 200+ internal users.

**Sun* Vietnam** — Hanoi, Vietnam
*Full Stack Engineer Intern* — *Jul. 2026 – Aug. 2026*
- Designed and built backend services in Java and Spring Boot for a Movie Ticket Booking platform, implementing transactional seat-locking logic (@Transactional and concurrency control) to eliminate race conditions and double-booking during peak checkout.
- Developed an interactive seat-selection matrix with a real-time reservation countdown using React and TypeScript, collaborating in an Agile/Scrum team to streamline booking workflows and reduce checkout latency by 25%.

## Technical Skills

**Languages:** JavaScript, TypeScript, Java, C#, C/C++, Python
**Frameworks & Libraries:** React.js, NextJS, Angular, Tailwind CSS, Spring Boot, .NET Core, NestJS, Node.js
**Databases & Tools:** PostgreSQL, MySQL, MongoDB, Supabase, Redis, Git, Docker, LaTeX

## Projects

**AI Mock Interview** — Jun. 2026 – Jul. 2026
*github.com/lethanhan01/interview-coach.git*
- Developed a full-stack AI mock interview platform that generates personalized HR, technical interview questions from job descriptions and candidate profiles.
- Built an interactive practice flow with Next.js, React, and Tailwind CSS, supporting text answers, real-time session progress, and detailed interview reports.
- Implemented a NestJS backend with Prisma, Supabase, Redis, BullMQ, and OpenAI APIs to automate transcription, question generation, rubric-based scoring, and segment-level feedback.

**Gym Management System** — Apr. 2026 – Jul. 2026
*github.com/lethanhan01/gym-management-system*
- Developed a full-stack gym management system for managing members, staff, trainers, workout plans, subscriptions, payments, equipment, feedback, and business reports.
- Built responsive role-based dashboards using React.js, TypeScript, Tailwind CSS, TanStack Query, Zustand, and React Router.
- Implemented secure RESTful APIs with NestJS, Prisma ORM, PostgreSQL/Supabase, JWT authentication, OTP verification, and role-based access control.

**Citizen Management** — Oct. 2025 – Dec. 2025
*github.com/lethanhan01/Citizen-Management.git* — *citizen-management.vercel.app*
- Developed a full-stack web application for managing household records and administrative data.
- Built responsive front-end using React.js and Tailwind CSS.
- Implemented RESTful APIs with Node.js and Express.js.
- Integrated role-based authentication and database operations using Sequelize and Supabase.

## Languages

**Japanese:** JLPT N3 (Intermediate) | **English:** Full professional proficiency
